## CLINICAL TROPICAL MEDICINE AND TRAVELERS' HEALTH

Expert opinion on topics that relate to refugee health.

-Course Participant 2017

#### **Update Course**

Designed for licensed physicians, nurses, nurse practitioners, physician assistants, veterinarians and other health professionals. Developed and presented by internationally recognized experts in the field of tropical medicine and travelers' health.

#### Attend This Meeting if You:

- 1. Have been working in clinical tropical medicine and travelers' health and want to learn the most up-to-date science in the field.
- 2. Have been spending some of your professional time in clinical tropical medicine and travelers' health and are interested in obtaining an overview of the field.

#### **Objectives**

- 1. Prepare patients for overseas travel to Low and Low Middle-Income Countries (L/LMIC).
- 2. Diagnose and treat individuals who have become ill during overseas travel or residence.
- 3. Diagnose and treat individuals living in the tropics and subtropics who are ill.

#### Benefit from This Course by:

- 1. Increasing your knowledge of patients' pre-travel needs.
- 2. Increasing your knowledge of illness in the returned traveler.
- 3. Increasing your knowledge of illness in endemic settings.

Pretty much all the information presented was very much needed and hard to get beyond a text book.
