

The Role of Universities and Global Health Programs: Is there a role for ASTMH?

1. How can the field of tropical medicine as fostered by the ASTMH meetings best relate in terms of education and research to the “new field” of global health?
2. What do you believe are some of the core competencies and curricular approaches of global health as well as career pathways for graduates of the programs?
3. What are some of the successful models universities have developed in implementing and supporting global health programs around the country?
4. What are some of the ethical issues you have encountered in global partnerships?
In particular what do you regard as the ethical responsibility of your institution to host sites vis-a-vis
 - *capacity building*
 - *research agendas*
 - *first authorship of publications*
 - *shared grants*
 - *retention and bidirectionality of overseas faculty and students*
