SESSION Gender Dimensions in the Prevention and Control of Neglected Tropical Diseases

Itinerary

 November 22, 2019, 7:15 PM - 9:00 PM

 National Harbor 11 (National Harbor Level)

DESCRIPTION

The symposium will present the importance of gender and intersectional analysis in addressing neglected tropical diseases (NTDs) meeting the goals of the WHO Roadmap on Neglected Tropical Diseases 2012 – 2020, enhancing access and delivery of health interventions and contributing towards universal health coverage and the sustainable development goals. The symposium will discuss a UNDP-TDR discussion paper on gender and NTDs, which synthesizes the evidence and presents clear recommendations on how to build more gender-equitable NTD programs and partnerships, gender analysis in implementation research and perspectives on gender analysis from Africa, South East Asia and South America. Presentations will be followed by a plenary discussion on intersectional gender analysis within program delivery.

11 Presentations
