## CHARTER OF THE AMERICAN COMMITTEE OF MOLECULAR, CELLULAR AND IMMUNOPARASITOLOGY

### Objectives

The American Committee of Molecular, Cellular and Immunoparasitology (ACMCIP) is organized under the auspices of the American Society of Tropical Medicine and Hygiene (ASTMH) and has the following objectives:

- To promote an organization that facilitates interactions among scientists who work in the varied disciplines of parasitology, especially in basic laboratory, pre-clinical and translational research, clinician sciences and population-based sciences.
- To foster transfer of fundamental discoveries in basic research to applications that improve human health and to promote learning basic science aspects of parasitic diseases from humans afflicted with parasitic diseases.
- To sponsor symposia or workshops to promote advanced research in medical parasitology.
- To facilitate recruitment and training in the most recent advances in medical parasitology.
- To recognize outstanding contributions to parasitology.
- To coordinate interactions and activities with other organizations and sponsored meetings to promote the objectives of ACMCIP.

- ACMCIP will meet at least annually under the aegis of the ASTMH Annual Meeting.

### Membership

Membership will require attendance at the annual business meeting of ACMCIP, as certified by a sign-up sheet circulated at the meeting.

Established investigators will be assessed an annual fee of \$25.00 per year. No fee will be charged to post-doctoral or predoctoral trainees. Membership will continue unless a member is absent from three consecutive annual business meetings. A former member may reinstate membership by attendance at any subsequent annual business meeting of ACMCIP. ACMCIP will establish a fund for voluntary donations to be managed by ASTMH. Funds will be used for activities that further the objectives of ACMCIP, including receptions, annual awards, fellowships and international training opportunities, payment of page charges in the *American Journal of Tropical Medicine and Hygiene* for qualifying articles (eg. editorials, topical reviews, symposium proceedings, cuffing-edge papers, etc.).

### Organization

There will be an elected leadership in the form of an Executive Council. The membership of the Executive Council should reflect the wide diversity of ASTMH, include a diverse set of disciplines and be international in scope. There will be an elected Chair. Councilors will be elected to represent the major aspects of molecular, immunological, biochemical, cell biological and clinical field aspects of medical parasitology. There will be an annual business meeting of ACMCIP during the ASTMH Annual Meeting. Administration of ACMCIP will be done in close relationship to the ASTMH office and the chair of the program committee. Subcommittees will be formed to deal with important issues such as awards, training initiatives, fundraising, interfacing with the *American Journal of Tropical Medicine and Hygiene*, planning of ACMCIP-supported symposia and workshops at the ASTMH Annual Meeting, to coordinate the selection of speakers from the Woods Hole Molecular Parasitology meeting and the Woods Hole Immunoparasitology meeting to present at the ASTMH Annual Meeting.
