About the Burroughs Wellcome Fund/ ASTMH Post-doctoral Fellowship in Tropical Infectious Diseases

Established in 1999, the Burroughs Wellcome Fund/ASTMH Post-doctoral Fellowship in Tropical Infectious Diseases supports career development of physician-scientists focused on infectious diseases of low and low-middle income countries.

This unique fellowship provides funding for individuals to conduct research in tropical infectious diseases (and, on occasion, other clinical conditions unique to tropical medicine).

It is designed to stimulate or sustain interest in research in tropical infectious diseases by individuals who are planning academic career paths focused on clinical research in order to build a long-term academic presence for our field in the U.S. and Canada.

of fellow who are proposing to perform research in tropical infectious diseases. In addition to post-doctoral infectious disease fellows, applicants who have completed training in other clinical specialties relevant to tropical medicine (e.g., internal medicine, pediatrics, OB/GYN) are encouraged to apply. The fellowship is NOT intended for students, pre-doctoral candidates, veterinarians, nurses, PhD scientists seeking post-doctoral opportunities, or faculty-level applicants. In addition, it is NOT intended to provide funding for overseas clinical electives or experiences.

Particular consideration will be given to:

- North American clinician-scientists enrolled in (or accepted by) a fellowship program approved by the Accreditation Council for Graduate Medical Education (ACGME) and those accredited through the Royal College of Physicians and Surgeons of Canada
- Applicants seeking support for their third (research) year of fellowship training
- ASTMH post-doctoral student members

A minimum of three months of each funded year must be spent conducting research overseas. We continue to monitor the global situation regarding the spread of COVID-19 and the impact this will likely have on your proposed project. Because of this, the Committee will address any COVID-19 related delays on an individual basis.

Applicants working toward board eligibility must obtain approval from their fellowship program director before applying for this award. If the period covered by this award is to be considered toward board eligibility, the recipient must have a continuity clinic at the overseas site (and the program director must notify the ACGME concerning the integration of this clinic into their fellowship program).

Application Evaluation Criteria

- Potential of this fellowship to influence the candidate's career
- Excellence and promise of the proposed candidate and his/her work
- Relevance of the proposed work to the amelioration of important tropical/geographic infectious diseases
- Excellence and experience of home and overseas mentors
- Adequacy of field populations/laboratory/epidemiologic facilities for the proposed work
- Institutional commitment from the home and overseas institutions
- Duration of three months at overseas site

Funding

- The Fellowship consists of two years of support at \$65,000 U.S. per year to cover travel, stipend, fringe benefits, health insurance and capacity development at the overseas site. We continue to monitor the global situation regarding the spread of COVID-19 and the impact this will likely have on your proposed project. Because of this, the Committee will address any COVID-19 related delays on an individual basis.
- The Fellowship does not allow for indirect costs.
- Funds for Year One of the Burroughs Wellcome Fund/ASTMH Fellowship will be distributed to the applicant's home institution. Subsequent allocation of funds for Year Two for qualifying fellowship recipients will be the responsibility of the applicant's home institution.

Funding is available for two 12-month periods:

Year One

The award for Year One will be made during the fellowship (generally the final year). During Year One of the Fellowship, the recipient should commit at least 80% of his/her time to research and spend three months working in a tropical or developing area. The three-month time period does not need to be continuous.

Year Two

The award for Year Two will be made once the recipient has entered a stable, entry-level faculty position. Year Two carries the same requirements as Year One: commit at least 80% of his/her time to research and spend three months working in a tropical or developing area. The three-month time period does not need to be continuous.
