

Campaign for New LMIC Members

In November 2021, Donald Severin Kamden, a Young Investigator Awardee from Cameroon and one of the 10 Woods Hole speakers invited to speak at the 2020 Annual Meeting, offered to use a portion of his monetary award to support 10 new LMIC memberships. When he posted this to Twitter, it was embraced by other ASTMH members and more donations followed. ASTMH has now established a campaign to bring in funds to cover 1,000 new LMIC memberships.

If you have never been a member of ASTMH and wish to be considered for a sponsored LMIC membership, please complete the form below. Final decisions will be made by members of the Membership and International Membership Committees. The sponsored LMIC membership will be active through June 30, 2026. Please contact [Buffy Finn](#) if you have any questions.
